

November 13, 1995

The Middlesex Governing Body met in a Special Called Session on November 13, 1995 at 7:00 p.m. with members Mayor Bobby Bissette, Commissioners David Jordan, Isaac Lewis, Naomi Powell and Bascoe Powell ^{Lewis} present, Commissioner Jerry Daniel was absent. Mayor Bissette called the meeting to order and recognized guests Coy (Doc) Pearce and J.L. McGee.

The purpose of this meeting was to discuss a request from Coy Pearce for sewer service at the Rock Side Grill. The Nash County Health Department has found him to be in violation of the N.C. Sewer Ordinance and taken the matter before the courts. The court has ordered Pearce to rectify the problem by December 14, 95 or the RockSide Grill would be closed until the matter is resolved.

Pearce stated that Jay Smith of the Nash County Health Department had designed him a 2" sewer line to pump the sewer to one of the town's manholes on US264, and that he would be willing to pay for the cost involved if the town would allow him to discharge into the manhole

Mayor Bissette informed Pearce that the town was under a sewer moratorium by order of the State of North Carolina and that permits would have to be obtained if they would allow the flow.

The clerk was instructed to check with State Officials to see if part of the flow allocated to the NC 231 Sewer Project could be re-allocated to this project.

Commissioner Isaac Lewis moved that the Town of Middlesex allow Pearce to install the line to discharge into the manhole providing that the Town of Middlesex can get the proper permit from EPA to allow this project and a letter from Nash County Health Department concerning the subject, his motion was seconded by Commissioner Powell and carried unanimously.

Mayor Bissette then asked the board to clarify the subject of maintenance on the line once it was put into the ground at Pearce's expense and was the town going to help with the project at all.

The Board stated that Pearce would maintain the lines on his property and the town would provide maintance from his property line to the manhole. Pearce would also have to pay the tapping fee of \$125.00 and the town employees could help to whatever degree possible in order to help him defray some of the cost.

This project is to be a temporary solution, until Middlesex can get a line to Zebulon which will serve the RockSide Grill.

J.L. McGee asked the question as to whether this would delay sewer to the homes on US264A and was told that it would not.

Being no further business, Commissioner Jordan moved to adjourn.
